MUHAMMAD SULEMAN

Business Development Executive | Software Engineering Student | Front-End Web Developer

0303 2951823 | Sulemanmunir6752@gmail.com | Green Acre Dubai Town, Lahore

PROFILE

Results-driven and technically versatile professional combining hands-on Business Development experience with a strong foundation in Software Engineering and front-end web development. Skilled in B2B lead generation, market research, and client outreach within a fast-paced AI technology environment, with proven ability to identify, qualify, and engage potential clients to build sustainable sales pipelines. Complements strong negotiation and relationship-building skills with practical HTML and CSS development experience, enabling clear, confident communication with both clients and technical teams. Motivated to bring a proactive, growth-focused approach to a dynamic sales, business development, or web development role.

EXPERIENCE

Business Development Intern | Gezora.Ai *June 2026 – Present*

- Actively engaged in B2B lead generation, identifying and qualifying potential clients to build a strong sales pipeline.
- Conducted in-depth market research and targeted outreach strategies to connect with key decision-makers and promote AI-driven solutions.
- Built and maintained a structured pipeline of prospective clients, tracking engagement from first contact through to follow-up.
- Collaborated cross-functionally with marketing and product teams to align outreach messaging with client needs and market trends.
- Applied consultative selling techniques to communicate the value of AI-driven solutions to prospective business clients.

Front-End Web Development internship | Developer Hub Corporation *April-May 2026*

- Designed and built a Student Registration Form using HTML, focusing on clean structure and usability.
- Developed a Quiz Web Page with multiple-choice questions using HTML & CSS, applying responsive design principles.
- Practiced building responsive web layouts and forms to strengthen front-end development fundamentals.
